

**CORRECTION, NONSIGNIFICANT AMENDMENT TO THE  
CUSTER NATIONAL FOREST LAND AND RESOURCE MANAGEMENT PLAN  
CUSTER NATIONAL FOREST, MONTANA, NORTH DAKOTA, AND SOUTH DAKOTA  
AMENDMENT NUMBER 27, MONTANA SENSITIVE PLANTS AND ANIMALS  
June 1993**

**CORRECTION**

I am correcting Forest Plan Appendix VII by adding a list of plants, animals, and fish that are classed as sensitive in Montana.

This correction does not affect any proposed outputs on the Custer National Forest. This list of plants, animals and fish was not available with the Forest Plan was printed.

**NONSIGNIFICANT NFMA AMENDMENT:** This decision does not significantly alter any of the long-term projections for timber production on the Custer National Forest as the timber production capacity of the Forest exceeds the allowable sale quantity identified in the Forest Plan. Therefore, this amendment is non-significant under NFMA (36 CFR 219.10(f)), and Forest Service Manual 1922.51, item 1 and 3.

This correction will be implemented upon public notice. This correction is public notice and will be sent to all those who have requested notice of Forest Plan amendments and those who have participated in the amendment process. In addition, notice of this correction will be published in local newspapers.

**ADMINISTRATIVE APPEAL:** This correction is not subject to appeal. This correction is in accordance with Forest Service 1950, part 18.2.

**CONTACT PERSON:** Additional information can be obtained from:
